Index Universal Life Insurance (IUL)

Build your financial future with a flexible permanent life insurance policy that provides protection and cash value accumulation.

## Top reasons to consider this product

### Accumulate cash value with managed volatility

This policy provides three crediting strategies linked to proprietary indices designed to help control volatility. Premiums can be allocated to one, two or all three strategies, plus the S&P 500 index strategy as well as the fixed rate crediting strategy.

### Secure living benefits you can use in your lifetime

Built-in and optional riders available with an additional charge that offer benefits to help cover qualifying chronic, critical and terminal illnesses.

### Access your cash value with flexible choices

You can access available cash value via loans or withdrawals<sup>1</sup> to help meet financial needs of any kind.

### Get coverage that may not require a medical exam

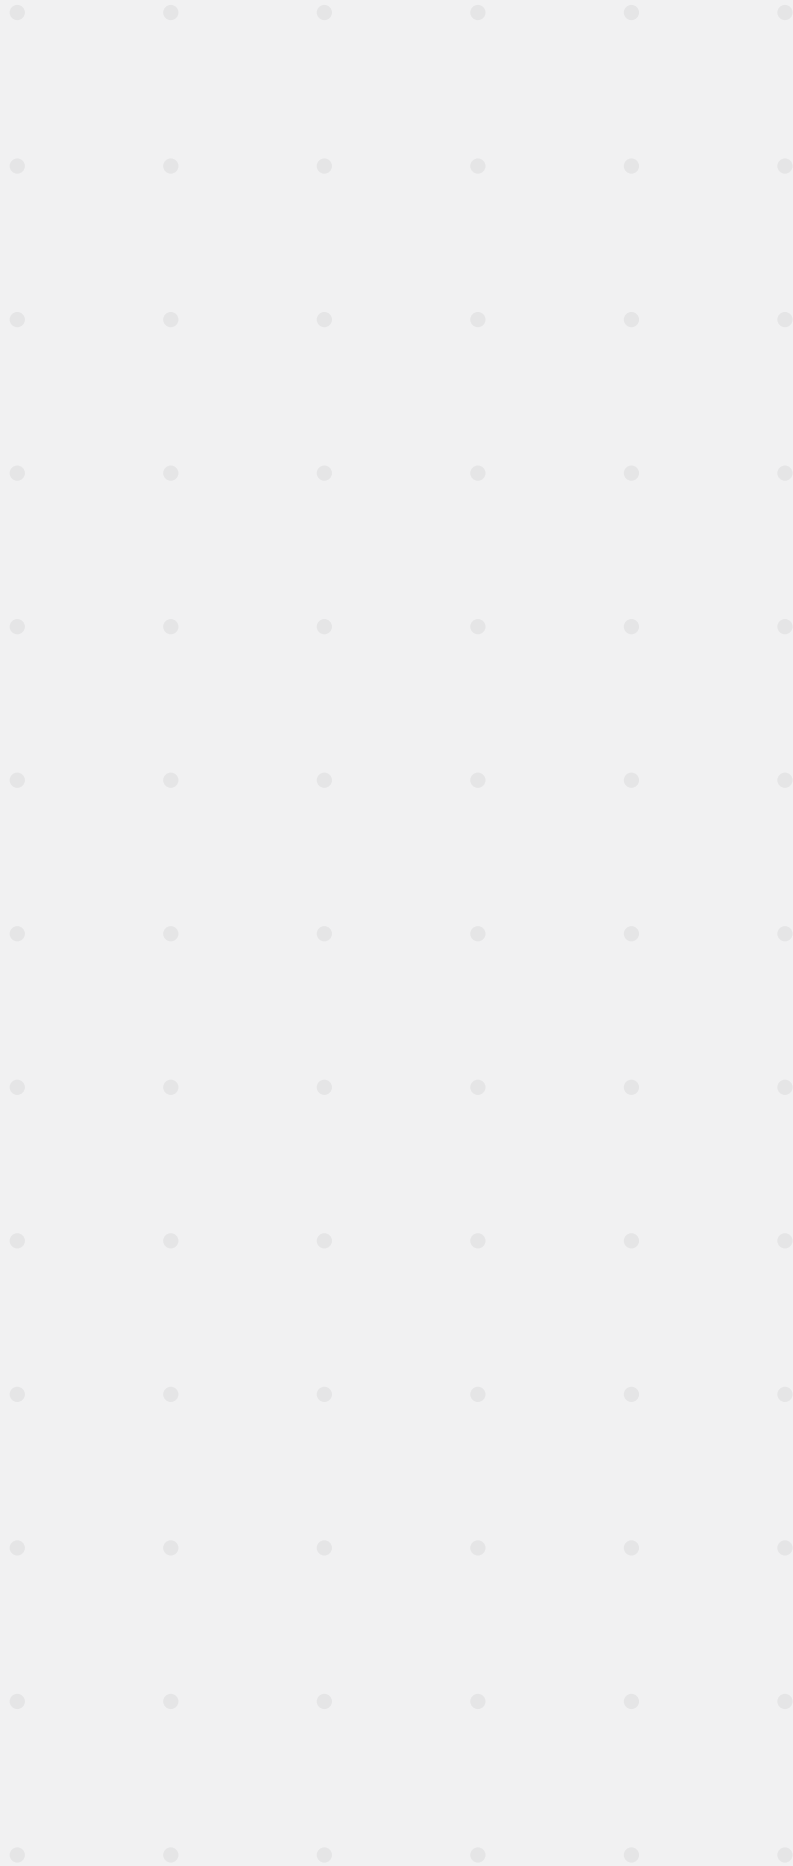

Can be approved and issued without traditional underwriting or medical exams through our Agile Underwriting+ program. Applicants must be age 59 and under and applying for \$2 million or less in coverage.

### Purchase more coverage at a discount

Our QoL Advantage Program gives you the option of buying additional term life coverage at a discounted premium.

<sup>1</sup> Assumes the use of withdrawals to basis and/or policy loans. Policy must comply with IRS requirements to qualify as a life insurance contract. Total premiums in the policy cannot exceed funding limitations under IRC section 7702. Withdrawals taken during the first 15 years of the contract may be treated as income first and includible in your income. If the policy is classified as a modified endowment contract (see IRC section 7702A), withdrawals or loans are subject to regular income tax and an additional 10% tax penalty may apply if taken prior to age 59 ½. Distributions will reduce policy values and may reduce benefits, availability of policy loans and withdrawals depend on multiple factors including but not limited to policy terms and conditions, performance, and fees or expenses.

## QoL Max Accumulator+ III Automatically Included Riders

### The QoL Accelerated Benefit Riders (QoL ABRs)

- Critical, Chronic and Terminal Illness Riders are automatically included at no additional cost
- Allows access to all or a portion of the policy death benefit if policy owner suffers a qualifying critical, chronic or terminal illness or condition
- Benefit amount available depending on qualifying critical, chronic, or terminal illness
- Maximum amount of life insurance benefit that may be accelerated is up to \$2 million or any lesser amount set forth in your policy
- Guaranteed minimum payout based on age at time of claim and qualifying illness or condition
- The specified amount, policy values and outstanding loan balances will be reduced if an accelerated death benefit is paid

### Income for Life Rider

- Issue Ages: 0-75
- Converts cash value into guaranteed income stream
- Optional annual adjustments for cost of living increases: 0%, 1%, 2%, or 3% options
- Exercise ages between 55-85
- Accumulation/waiting period: policy must be in force for 10 years
- Step up: guaranteed lifetime income can increase if index performance exceeds a certain level
- Certain distributions may be taxable. You should consult your personal tax advisor to assess the impact of the benefits on your particular circumstances.
- One time charge deducted from account value at time of election. Additional annual fee not to exceed \$25 for payment frequencies other than annual.
- Requires Guideline Premium Death Benefit Compliance test

### Overloan Protection Rider

- Rider guarantees that base policy will not lapse due to an outstanding loan
- Rider must be activated in writing once the loan balance exceeds 94% of cash value. A 1x charge will be deducted from the accumulation value, and future monthly deductions will be waived.
- Rider benefit can be activated at or after the later of attained age 75 or 15th policy anniversary

### Dollar Cost Averaging Rider

- Automatic, free rider that allocates lump-sum payments (both 1035 and non-1035) as well as periodic payments on frequency of annual, semi-annual and single premiums to be allocated to this rider and then dispersed to the Index Interest Accounts over several months so that a large portion of the policy's Accumulation Value is not subject to the market movements of only one date. It is your client's choice to utilize this rider. There is no additional fee associated with this rider. Utilizing this rider will affect the amount of interest your policy earns. Depending on the performance of the indices, utilizing this rider may result in more or less interest.
- The DCA Rider creates an additional account ("DCA Account") that will remain on the policy for the life of the contract. Interest is credited daily. The amount of interest credited is determined by the Company but shall be no less than 2.00%. Premiums allocated to the DCA account will be transferred into the Index Interest Accounts according to the allocation % of your choosing.
- Note that transfers from the DCA Account to the declared interest account are not permitted

### Extension of Maturity Date

- This feature provides the option to extend the policy coverage past policy maturity (age 121) unless the Owner elects to terminate the policy and receive the Cash Surrender Value
- If coverage is extended, coverage under any riders will terminate and no further deductions for policy charges will be deducted from the Accumulation Value
- No additional premiums may be made unless additional premiums are necessary to keep the policy in force

## QoL Max Accumulator+ III Additional Riders and Features <sup>5</sup>

### Accelerated Access Solution<sup>®</sup> (AAS) Chronic Illness Rider

- Premium paying rider provides income for qualifying chronic condition. Three options available: 2% of AAS benefit per month; 4% of the AAS benefit per month; IRS per diem maximum of the AAS benefit per month.
- Monthly benefit is capped at the maximum IRS daily rate at the time of claim. The 2023 maximum per diem is \$420/month or \$12,775/month. Subsequent years may be higher. (Not available in California)

#### Coordination of Benefits

If the Accelerated Access Solution (AAS) is selected, these additional coordination of benefits apply:

- In the event of a qualifying Chronic Illness, the AAS benefit rider pays out prior to QoL Chronic Illness Accelerated Benefit Rider (ABR)
- Additional qualifying events will be covered under the QoL Chronic Illness ABR
- May accelerate Chronic Illness benefits from both the AAS and QoL Chronic Illness Rider depending on the elected AAS benefit amount
- 100% of the death benefit up to a maximum of \$3,000,000 is available when accessing both the AAS and QoL ABRs

### Death Benefit Installment/ Select Income Rider

- Optional rider converts a portion or all of the life insurance benefit for beneficiaries to a predefined guaranteed set of annual payments
- Benefit schedule will be based on initial face amount of policy at issue and is irrevocable for the beneficiaries
- Minimum percentage of life insurance benefit available to convert is 10% (up to 100%)
- May lower the policy's cost of insurance charges, which may enable cash value to accumulate faster
- Schedule of life insurance benefit payments will be determined at issue
- Life insurance benefit payments will increase annually at a rate set at issue

### Accidental Death Benefit Rider (ADB)

- Provides an additional death benefit if death resulted from certain accidental injuries
- Minimum: \$25,000;  
Maximum: The lesser of \$250,000 or the initial sum insured under the policy

<sup>5</sup> There may be a charge for some of the riders selected. See the rider for details regarding the benefit descriptions, limitations and exclusions. Adding or deleting riders and increasing or decreasing coverage under existing riders can have tax consequences. Policy owners should consult a tax advisor prior to exchanging their policy. Riders are not available in all states. available in all states.

# QoL Max Accumulator+ III Accelerated Benefit Rider Disclosures

## Important Consumer Disclosures regarding Accelerated Benefit Riders

**An Accelerated Death Benefit Rider (ABR) is not a replacement for Long Term Care Insurance (LTCI). It is a life insurance benefit that gives you the option to accelerate some of the death benefit in the event the insured meets the criteria for a qualifying event described in the policy. The rider does not provide long-term care insurance subject to California insurance law, is not a California Partnership for Long-Term Care program policy. The policy is not a Medicare supplement.**

**ABRs and LTCI provide different types of benefits. An ABR allows the insured to access a portion of the life insurance policy's death benefit while living. ABR payments are unrestricted and may be used for any purpose. LTCI provides reimbursement for necessary care received due to the inability to perform activities of daily living or cognitive impairment. LTCI coverage may include reimbursement for the cost of a nursing home, assisted living, home health care, homemaker services, adult day care, hospice services or respite care for the primary caretaker and the benefits may be conditioned on certain requirements or meeting an elimination period or limited by type of service, the number of days or a maximum dollar limit. Some ABRs and all LTCI are conditioned upon the insured not being able to perform two or more of the activities of daily living or being cognitively impaired.**

This ABR pays proceeds that are intended to qualify for favorable tax treatment under section 101(g) of the Internal Revenue Code. The federal, state, or local tax consequences resulting from payment of an ABR will depend on the specific facts and circumstances, and consequently advice and guidance should be obtained from a personal tax advisor prior to the receipt of any payments. ABR payments may affect eligibility for, or amounts of, Medicaid or other benefits provided by federal, state, or local government. Death benefits and policy values, such as cash values, premium payments and cost of insurance charges if applicable, will be reduced if an ABR payment is made. ABR payments may be limited by the contract or by outstanding policy loans.

## Accelerated Access Solution (AAS)

The Accelerated Access Solution (AAS) is an optional living benefit rider that is available on the insurance policy issued by American General Life Insurance Company in the state of California. The Accelerated Access Solution is a life insurance rider that accelerates a portion of a policy's death benefit when an insured meets the health impairment criteria set forth in the rider.<sup>6</sup> Control over how money is spent is up to the policy holder: there are no receipts required and no restrictions on what the money is used for once the policy owner has been certified as eligible to receive AAS benefits. Benefits are paid directly to the policyholder for as long as the criteria are met, or until the AAS benefit amount is exhausted, whichever occurs first. Acceleration of death benefits and payments under such an accelerated death benefit will reduce the death benefit of the policy and reduce other policy values as well, potentially to zero. If the entirety of the insurance amount is accelerated, the policy terminates.

## Payout Options

Multiple benefit payment options are available with three options for monthly disbursement at the time of purchase:

- 2% of AAS benefit, or the applicable maximum monthly amount if less
- 4% of AAS benefit, or the applicable maximum monthly amount if less than the maximum monthly amount is \$10,000 increased annually by 4% until the time of claim.
- IRS per diem maximum of the AAS benefit per month (not available in California)
- Alternatively, you have the option at the time of claim to receive the accelerated benefit in a lump sum payment in lieu of the benefits payable under the monthly payment option you selected. Such lump sum benefit will be subject to an actuarial discount that is determined by the company at the time you become eligible for benefits under the rider.<sup>7</sup>

## Benefit Payment

Once the insured meets the health impairment criteria and benefits have been approved for payment, they may select their disbursement. There is a maximum benefit payable under the monthly disbursement option that we'll notify the insured of at their time of claim. The insured may also select a smaller amount than the maximum monthly benefit. A lump sum option is available as well; which can be substituted for monthly benefits.

## Tax Implications

There are no restrictions or limitations on the use of the accelerated death benefit proceeds under the Chronic Illness Accelerated Death Benefit Rider. The accelerated benefits payable under this rider are generally intended for favorable tax treatment under Section 101(g) of the Internal Revenue Code. There may be tax consequences in some situation in accepting an accelerated benefit payment amount, such as where payments exceed the per diem limitation under the Internal Revenue Code. You should consult your personal tax advisor to assess the impact of this Benefit prior to accepting the Benefit.

<sup>6</sup> Insured must be certified as chronically ill by a Licensed Health Care Practitioner and meet all eligibility requirements and the condition need not be permanent.

<sup>7</sup> The Company will determine the actuarial discount applicable to a given lump sum payment using factors including, but not limited to the Company's assessment of the expected future mortality of the Insured and an interest rate determined as described in the rider.

FQD embeds an annual index cost in the calculations of the change in index value. This embedded index cost will reduce any change in index value, and it funds certain operational and licensing costs for the Index. Since it will affect the return of the Index, it may also impact the amount of interest credited to an index annuity; however, it is not a fee paid by the policy owner or received by the issuing insurance company.

## Information about the ML Strategic Balanced Index®

The ML Strategic Balanced Index® provides systematic, rules-based access to the blended performance of two underlying indices—the S&P 500 (without dividends), which serves to represent equity performance, and the Merrill Lynch 10-year U.S. Treasury Futures Total Return Index, which serves to represent fixed income performance. To help manage overall return volatility, the Index may also systematically utilize cash performance in addition to the performance of the two underlying indices.

**Important Note:** The ML Strategic Balanced Index® embeds an annual index cost in the calculations of the change in Index Value over the Index Term. This "embedded index cost" will reduce any change in Index Value over the Index Term that would otherwise have been used in the calculation of index interest, and it funds certain operational and licensing costs for the index. It is not a fee paid by you or received by the Company. The Company's licensing relationship with Merrill Lynch, Pierce, Fenner & Smith Incorporated for use of the ML Strategic Balanced Index and for use of certain service marks includes the Company's purchase of financial instruments for purposes of meeting its interest crediting obligations.
