## HOW TO APPLY YOUR COLOR PALETTE

📌 To ensure the same outfit flexibility for your palette: When deciding what color to use for an item, note the color category that the piece in the plan uses. Apply a color from the same category in your color palette. FOR EXAMPLE: The color tee uses coral which is a main color for spring/summer. Use any spring/summer main color in your color palette for this piece.

📌 You can create more outfits than what's listed here, but 36 is a great start!
